### Notice of Non-Responsive Amendment

The communication, filed on 03 October 2002, is non-responsive because applicants have improperly submitted amendments to the specification. Due to the improper submission, the proposed amendments were not entered. Amendments to the specification must not only indicate page number and line number for location of the replacement paragraph/section; but **must include the entire clean version of the replacement paragraph and the entire paragraph of the marked-up copy** showing the amendments to be made via the substitute specification relative to the specification at the time the substitute specification is filed; a statement that the substitute specification contains no new matter. Any proposed drawing correction or corrected drawings, applicant must submit another copy of the drawing.

Since the response appears to be bona fide, but through an apparent oversight or inadvertence failed to provide a complete response, applicant is required to complete the response within a time limit of one month from the date of this letter or as extended as follows. **AN EXTENSION OF THIS TIME LIMIT MAY BE GRANTED UNDER EITHER 37 C.F.R. § 1.136(a) OR (b) UP TO A MAXIMUM OF SIX MONTHS.**
